Mr. Eddridge, of Missouri, was called upon, and said the interests of his heart were wrapped in the great work which is destined to extend to the mountains of Colorado, and on to the Pacific, and he hoped to live long enough to see the great work finished. He felt assured that he would do this, as the enterprise is in the hands of much who will complete the work inside of three years. the sale of their produce and the pur chase of supplies.
"You scarcely pass out of sight of your beautiful city before you enter a country every acre of which is susceptible of cul-tivation; and pass a little further, you find a region as healthy as any to be found in the world. Not far beyond is the Upper White River Valley, as beautiful as the renowned and magnificent valley of the Shenandoah; and this is all to be found ong the line of this projected railroad."
